

by Seymour Midwest LLC

The Aquatic Weed Eradicator (AWE), exclusive to Seymour Midwest, is the most effective bottom-cutting weed removal tool available on the market.

No need for dangerous and expensive chemicals; this tool removes weeds at their source. With a reinforced 28" serrated cutting blade, you don't have to worry about the blades bending under a heavy load of weeds.

Item #87028

Simply an AWESome tool!

Simply skim the AWE across the water and let it sink

Retrieve in a short push-pull action

Drop the weeds off

- A “bottom-cutting” environmentally safe tool that can cut without killing; it’s like an underwater lawn mower
- After cutting, the AWE can function as a gathering tool
- 28” double-edged, braced and serrated steel cutting blade encased in an aluminum frame
- 11’ two-piece rust-proof powder-coated aluminum handle, with additional extension handles available (#87003)
- Push pin splice for easy assembly / disassembly
- Trilingual POP packaging that clearly communicates the use of this special tool

"DUAL PURPOSE" LAKE RAKE

This 36" wide aluminum rake comes with an 11', two-piece rust proof powder-coated aluminum handle with push pin splice for easy assembly and disassembly, detachable polyethylene float, and a 50' length of rope. Use it to skim floating aquatic vegetation and algae from the water. By shortening the handle and removing the float, you have a professional-grade landscaping rake, excellent for dressing beach sand.

Throw and retrieve using the attached rope, or can be used with its two-piece 11' handle.

Great for cleanup after using the AWE

Point-of-Purchase
(POP) Box

SCREENING RAKE

An excellent tool when you need to sift or screen stones and debris from the beach. Its 66" powder-coated aluminum handle with 6" non-slip vinyl grip and strong wrap-around bracing provide for maximum durability and comfort.

Five different head widths available:

24" 11024

30" 11030

36" 11036

42" 11042

48" 11048

Toolite® U.S. Patent 5,601,325

Designed for sifting and removing debris from sand and all types of soil.

The 49510 is a one-piece injection molded polypropylene that is heavy-duty and lightweight. It has a 14" x 17" scoop style head with a 27" D-grip handle.

The 49512 has a lightweight aluminum 13-1/4" x 17-1/2" head with a 48" wood handle. Holes are 3/8" diameter.

Sift & clean up beach areas and lake bottoms of swimming areas. Also good for sifting compost.

Item #49510

Item #49512

SUPER FORK

An excellent clean-up companion tool for the AWE and Lake Rake. The specially engineered polycarbonate head is virtually indestructible.

Choose your favorite handle style:

- 52" blue powder-coated aluminum handle (44118)
- 52" red vinyl-coated steel handle (44115)
- 52" hardwood handle (44111)
- D-grip hardwood handle (44112)
