

SPEEDSQUEEGEE^{HD}

HEAVY-DUTY REPLACEABLE BLADE APPLICATION SQUEEGEE

MIDWEST RAKE[®]

**IDEAL FOR HIGH VOLUME DECK-COATING, WATERPROOFING
AND URETHANE PRODUCT INSTALLATIONS**

KEY PRODUCT FEATURES:

FRAMES:

- Heavy-duty aluminum frame with tapered handle adapter.
- Frame kit Includes: frame, clamp, hardware bag and tapered handle adapter.
- Product is designed to be easily assembled without tools in just minutes.

BLADES:

- Rubber blade is precut and prepunched allowing for easy assembly on the frame.
- Blades ends are color-coded to identify both size of notch and approximate WFT delivered.
- Blades offered in gray EPDM or black neoprene
- *Frames & blades are sold separately*

SPEEDSQUEEGEE^{HD}™ PRODUCT OFFERINGS:

#	SMW #	DESCRIPTION	UPC	PACK QTY
BLACK NEOPRENE	47520	Midwest Rake® SpeedSqueegee™ HD Frame, 24" Aluminum Head, Tapered Handle Adapter	046385475200	6
	47521	Midwest Rake® SpeedSqueegee™ HD, 24", Flat, Black Neoprene Blade	046385475217	6
	47522	Midwest Rake® SpeedSqueegee™ HD, 24", 1/8" W x 1/16" D (8-12 mil), Black Neoprene Blade	046385475224	6

	47564	Midwest Rake® SpeedSqueegee™ HD, 36", 1/4" W x 1/8" D (20-28 mil), Black Neoprene Blade	046385475644	6
	47565	Midwest Rake® SpeedSqueegee™ HD, 36", 3/8" W x 1/4" D (30-45 mil), Black Neoprene Blade	046385475651	6
	47566	Midwest Rake® SpeedSqueegee™ HD, 36", 1/2" W x 3/8" D (60+ mil), Black Neoprene Blade	046385475668	6

FRAMES AND BLADES ARE SHOWN TOGETHER FOR PHOTOGRAPHY; BLADES AND FRAME ARE SOLD SEPARATELY.

What squeegee notch width / notch depth should I use to apply 10 mils of epoxy? At Midwest Rake®, the answer is **always** refer to our "Nominal Wet Film Thickness Chart" to determine the appropriate notch width / notch depth required for your job. Our squeegee blades have a unique design - shallower depth notches enable Midwest Rake® squeegees to stand out from the competition ensuring a consistent and tight range of wet film thickness delivery.

NOMINAL WET FILM THICKNESS CHART

Description	Notch Width	Notch Depth	WFT (in Mils*)
1/8" V-Notch	1/8"	1/16"	8 - 12
3/16" V-Notch	3/16"	3/32"	15 - 20
1/4" V-Notch	1/4"	1/8"	20 - 28
3/8" V-Notch	3/8"	1/4"	30 - 45
1/2" V-Notch	1/2"	3/8"	60+

The chart conversions above are not absolutes and are provided to help guide blade selection. Many factors can contribute to the actual wet film thickness produced; including: pressure exerted on the blade, porosity of the substrate (concrete) being coated, material being used and if and how the back-roll is completed. If you have any questions or would like to discuss the particulars of your project - please contact us at 844-SEYMOUR and we would be more than happy to provide guidance in the application squeegee selection process.
