## *Wrap-Around Brace* Assembly Instructions

### Tools Needed for Assembly

- 7/16" wrench (two)

### Parts Shipped with Unit:

- Head (for particular tool purchased)
- Wrap-around brace (set of 2)
- Bolt bag for brace
- Aluminum handle with grip (not shown)

### Assembly Instructions for Handle:

1. Slide slotted end of handle over center hole on aluminum head.
2. Align holes and insert middle size bolt. Do not tighten until all hardware is in place.

### Wrap-around Brace Instructions:

1. Align holes of flat end of braces with holes on rake head, as shown, and insert the two shortest bolts.
2. Align holes of wrap-around end of braces with the handle, as shown, and insert the longest bolt.
3. Start all loc nuts on bolts. Use wrenches to tighten, being careful not to over tighten. Over tightening may result in crushing the handle, thereby compromising its strength.

#### **FULL WARRANTY**

*All Seymour Midwest products carry a full warranty against manufacturer defects in quality and workmanship. Products which have been abused or worn out from normal use are excluded from this warranty. We reserve the right to replace or issue credit on an individual basis.*
